Measure, Appointment or Topic: SB110

In this time of budget challenges, all residents of Oregon need to be paying to support basic services such as police and fire departments, transportation... At a time when there is talk of so many cuts, it does not make sense to pass a bill that will decrease taxes paid to support state/local services.

My sense is that it is not a sure thing that projects like this can be relied upon to be money making for the state. Please oppose this bill.
