Measure, Appointment or Topic:

SB243

huhboy...The blurb above, describing this "bill", (Actually another hit piece on Oregon's tax paying Citizenry, non-aligned with the democrat socialists, and their "agenda on America", to force us-them into submission to the mindless autocracy driving "our" once lovely state of Oregon's collective reproductive organs into the dirt), doesn't even begin to. There's so much more in this "bill" to punish honest, non-violent, law abiding citizens once again, to show how in line Oregon's legislature is with national and international leftist policy, and these clowns haven't even gotten to the "good stuff", yet, they're saving those abominations to foist on the Citizenry for the end of session. It's a puppet show for the adults, like this testimony page these psych. medicated nut jobs don't even glance at, but with actual, usually negative, effect. No on SB203 of course. period PS, I've counted several "Support" comments that are actually, in content, "Opposed", when democrats get desperate they lie, who cares, right..

"Regards"

Ralph Newton
