

Submitter: Dana Hindman-Allen

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: SB181

Dear Legislators,

With the advancements of modern technology, it is no longer necessary to perform experiments on animals. The suffering of these captured and caged animals for the duration of their life is unimaginable. The fear and misery that they experience is inhumane. This is a bipartisan issue and would be a win for animals who are voiceless and need advocacy. Let's move into the modern age with all of the massive technology and advancements to conduct research without the use of animals. They have given enough to science,

I urge you to support this bill!

Thank you,

Dana Hindman-Allen
