Senate Committee On Rules

Measure, Appointment or Topic:

SB243

Please oppose this bill. It just makes life more difficult for law abiding citizens. Current laws are not enforced or convicted criminals are not given a harsh enough sentence. My examples 1. Ex Doctor David Farley (West Linn) NOT prosecuted for sexual assaults on women and girls. Some as young as babies. Assaults number close to 200. The state Attorney General will not even open an investigation.

2. The "Crater Lake Poacher" given a ridiculously light sentence for being a REPEAT offender of Felon In Possession of a Firearm. Please take 5 minutes to research these crimes. We don't need more laws when Current laws are not enforced.

Our sidewalks and Trimet Light Rail are unsafe and often unsafe to use. This is because both are often covered up, blocked, or controlled by drug addicts.

Thanks
