Senate Committee On Rules

Measure, Appointment or Topic:

SB243

Please stop placing the burden on citizens because your system cannot complete a background check in a timely manner. Waiting periods place unnecessary burdens on lawful firearm owners while not having an affect on criminality. Please utilize our tax dollars in a more beneficial manner by addressing the main reasons for criminality in this state (drug use, homelessness, cost of living, ect) and stop attacking law abiding citizens rights. I strongly disagree with the recent legislation being proposed.
