Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB243

This measure is ludicrous and will do nothing to stop “gun violence”, if passed all this will do is delay people of their constitutional right to bear arms by delaying someone’s background check even if they are approved instantly, a right delayed is a right denied, nowhere in the second amendment does it say someone must wait 72 hours before being allowed to pick up their firearms, “a well regulated militia, being necessary to the security of a free state, the right of the people to keep and bear arms, shall not be infringed.” What is so hard to understand about that?
