John Dunkin

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB243

Useless legislation based on NO evidence or logic based on data. Background checks work just fine. There's no such thing as "common sense" laws. Please just let the law stand as it is. This presents potential hardship to sellers who travel to shows. Why would a consumer buy at a show with having to return to a seller's location potentially HOURS away? This is simply a lost sale.
