

Submitter: Denise Jessup

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: HB3336

Dear Honorable Chair Senator Sollman and Members of the Senate Committee on Energy and Environment.

Thank you for the opportunity to testify in favor of HB 3336. To achieve Oregon's 100% clean energy goals reliably and affordably, we need to address our transmission bottleneck. HB 3336 expands transmission capacity by requiring utilities to deploy cost-effective technologies to existing infrastructure. I strongly urge you to support HB 3336 and the dash-2 amendments to help move Oregon toward achieving our energy efficiency goals.

Thank you,
Denise Jessup
