Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB243

If a person is willing to serve and die for this country, there should be no reason why he/she can't own/purchase a firearm under the age of 21. What this bill is circumventing the the 2nd amendment of the people. Those who support this bills are truly support the WWII philosophies of disarming their law bidding people to guard against the tyranny of the government. This was what Hitler did during WWli.
