SB243

Every time a guaranteed right of self defense is withheld a life is in danger so attacking our God given and constitutionally protected rights. It already takes way longer than 72 hrs to get an instant background check approved. We all know why this is. Quit extending your reach over our rights. This is just another government overreach. Quit wasting our tax dollars on passing laws that are unconstitutional and will cost more in lawsuit after lawsuit. Save a life by saying no on this unconstitutional bill.
