

Submitter: Robin Cushman

On Behalf Of:

Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: HB3336

Chair Sollman and Committee Members;

I am writing to ask you to support HB 3336. In Oregon we have a 100% clean energy mandate to fulfill. The practical solution on building upon what we already have in place for expanding infrastructure is wise and fiscally prudent.

Oregon continues to grow. We will need these resources in place soon. Building on existing infrastructure will make this happen more quickly. I strongly urge you to support HP 3336 Grid Enhancing Technologies.

Thank you for your work and your consideration of this matter.

Sincerely, Robin
