Committee: Senate Committee On Energy and Environment

Measure, Appointment or Topic: HB3336

Honorable Chair Senator Sollman and Members of the Senate Committee on Energy and Environment.

Thank you for the opportunity to testify in favor of HB 3336 that expands transmission capacity by requiring utilities to deploy cost-effective technologies to existing infrastructure. This is bill critical as we move forward to achieve our energy efficient goals. I strongly urge you to support HB 3336.
