

Submitter: Penny Moran
On Behalf Of: Self
Committee: House Committee On Emergency Management, General
Government, and Veterans
Measure, Appointment or Topic: SB181

I support expanding SB181 to include ending the use of primates in breeding and research. Dogs, cats, and primates are sources of joy and love, and in our civilized world, can not be used in such a horrific, painful manner. If one is able to "put aside" normal feelings for animals then they absolutely should not be in a medical position of any sort. ;" first.....do no harm." Even those who are afraid of animals, I still believe that given their fear, they would not be capable of torturing them. Any knowledge gained by this is not anything I need in my life. At age 71, I would die tomorrow rather than use a live, whole animal to keep me alive.
