Measure, Appointment or Topic: SB181

As an Oregon resident, I'm asking you to please support SB 181, which would prohibit state funding for experiments that cause the most suffering to dogs and cats at university laboratories. Please also support an amendment that would phase out the OHSU primate facility and send the animals to sanctuary. This issue means a great deal to me. We call ourselves an animal-friendly city, but I can't accept that while we are imprisoning and harming monkeys at the primate center. Please help these creatures who have no voice. They deserve far better than what we are doing to them.
