

Submitter: CHARLENE Landrum
On Behalf Of: Sb181
Committee: House Committee On Emergency Management, General
Government, and Veterans
Measure, Appointment or Topic: SB181

I do not like the use of any animal for testing or harming them do to research. I had a monkey when I was younger and it makes me sick to use them for research which can cause death or injury. Shut down the lab! They are very smart animals.
