

Submitter: Christine Cody

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: SB181

I strongly support expanding Senate Bill 181 to include ending the use of primates in breeding and research. All of us must commit ourselves to caring for the animals remaining on our planet as we enter into this terrible time of increasing global warming, climate change, and the resulting endangerment of so many species. We must not allow outright cruelty against another species, particularly one with such obvious awareness and understanding.
