

Submitter: Laura Kimmel
On Behalf Of: SB181
Committee: House Committee On Emergency Management, General Government, and Veterans
Measure, Appointment or Topic: SB181

I support ending SB 181 on ending the mad scientist, practice using primates for research. OHSU used to have great respect for education and health care. Now we must reconsider that respect since learning about their use of primates. There is no excuse for using animals, such as dogs, as the "mad scientist," Fauci did, or what OHSU is doing with primates. In these modern years, and the future; this is a practice of the Dark ages. How could you!? This is not a decision based on lack of volunteers. Animals, primates can not speak of the pain you put them through. Just as a psychiatrist will ask about a troubled child " Do they hurt animals?" OHSU has given the excuse of science for the people doing these experiments for a psychological problem. I will never trust OHSU again.
