Hey RULES...

I guess I have to oppose this HB 3768 because recently Eugene 4 J school district had to remove Totem Poles because they were not indigenous to the Hood.

Fact is... they were not created by Natives, prayed over by natives and in fact were upsetting to Natives of Eugene Oregon. (so the news said).

Seems to me we have to over think things to get them wrong, before we reverse the process to get it right ???

That this Bill has a Emergency Clause is proof to me this legislation is a compulsive "want"... more than social repair.

OUCH !
