Committee: House Committee On Revenue

Measure, Appointment or Topic: SB110

I am writing opposed to SB110. This is a poor investment and will cost Oregonians tax dollars that could be used for more important matters. Major league teams are generally owned by extremely rich persons and many of their players make high salaries. Why should we subsidize these rich owners. They play off one city against another in order to build stadiums with the threat that they will leave or not move to your city if you don't subsidize them. And if we choose to make this investment, what is to stop them from 10 years later from asking for a bigger or better stadium or they will leave. This seems almost criminal to me and I don't want my tax dollars going to a stadium to subsidize the rich. Thanks for the opportunity to speak up on this.
