Committee: House Committee On Rules
Measure, Appointment or Topic: HB3971
Chair Bowman and Honorable Members of the House Committee on Rules

Please support on HB 3971

This bill will create a requirement for counties to approve land use applications for mixed waste facilities in the Willamette Valley as long as they conform with the requirements that land is owned by a local government entity, outside an urban growth boundary and in zoned appropriately.

As a resident of Lane County, I am looking forward to the start-up of our CleanLane project that will divert an estimated 80,000 tons of trash annually from our landfill. When our facility is built it will capture around 90% of methane from our organic waste before it enters the landfill.

Any kind of legislative support for this forward looking project would be much appreciated.

Thank you for you attention and support for HB-3971
