To whom it may concern

We The People of this once great state are suffering tremendously by the justice system, by high taxes, by not being able live our lives without constant over regulation and fear of every legislative session that attacks rural constituents way of life.

Now Oregon leaders are trying to take away our right to vote (not like it matters with all the fraud and illegal voting taking place in our state) for our states senators who are supposed to be our voice in Washington. Currently our state senators are doing nothing to make Oregon better by fighting the current administration instead of raising up our communities. They are more concerned with going to war with President Trump instead of help us better our education, or actually helping with the homelessness and drugs crisis or the illegal criminals running drugs and trafficking our children.

Now, our poor excuse for a governor wants to have the power to appoint our senators so they can run as an incumbent and prior to be voted on, they make decisions and laws without ever giving Oregon residents an opportunity to voice our opinion and elect our own senator.

You call Trump a dictator and all the horrible things, but this is clearly a grasp for power and to dictate the Oregon legislature instead of giving the voice to WE THE PEOPLE.

Every sponsor of this bill should be ashamed and primaried out of office because this is a disgrace to our constitutional republic, a disgrace to all the lawful citizen, and also a disgrace to our once Great and prosperous state of Oregon.

I urge every member to please, regardless of your political standpoint to come together and agree this is not a decision that should be placed into the hands of our incompetent governor or any future governors.

Thank you for your attention to this matter

Sincerely

A very concerned citizen
