

Submitter:

Kathryn Giannini

On Behalf Of:

Committee:

Senate Committee On Finance and Revenue

Measure, Appointment or Topic:

SB702

This Bill is outrageous. You must be 21 and over to even step foot into a vape shop. I understand the emotions surrounding the supporting side of this bill but thats all they are is purley emotions not scientific facts because if it was based on science, this bill would not have made it this far. If this bill were to pass this would be forcing a customer wanting to purchase a flavored vaping product to have to go into a liquor store that would cause more harm than good. That person could be a recovering alcoholic or addict and you could be putting them in direct contact with a substance they are trying to avoid. People come to 21 and up vape shops without being put in that postion. You would be taking away jobs from countless people. This is not right.
