Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB702

I was I was a smoker for over 20years. Since I started vaping I have been able to quit smoking completely and now I can adjust how much nicotine I take in if any because they do offer juice without nicotine even. My health has gotten better I don't have cravings like I used to I don't stink I don't pollute is a much safer way for me and it is done nothing but help me improve my health. I believe is a much better solution just smoking in fact I have actually used it to quit smoking I've tried every other route to quit smoking and nothing works. And on another plane I'm a grown man and I should be able to make my own decisions and shouldn't have the decisions taken from me by people that don't even know who I am or care to know my story my struggle this band all it is is another prohibition and we seen what happened last time during prohibition and what it caused. If we truly live in a free country then this been will not pass.
