

Submitter: Esther Friedman

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB702

Flavored tobacco products are marketed toward and attract young teens and preteens, setting them on a long road of addiction and harm that can be prevented by the restriction of these sales. Tobacco is overwhelmingly found to be harmful and there is no benefit to the health and well being of anyone by widely marketing these products widely. They should be restricted so they do not produce harm and addiction in another generation.
