Measure, Appointment or Topic:	HB3971

I oppose this measure for two reasons. The first is that the land in question is designated Wet Land and is subject to flooding which will have an undetermined environmental impact on the ground water and wells and soil in the surrounding rural community. Additionally, there is already a functioning waste management facility within 5 miles of this location that is better suited for these services. There is no existing or pending state of emergency and I oppose the creation of one to pass this bill.
