

Submitter:

Grant Johnson

On Behalf Of:

Committee:

House Committee On Rules

Measure, Appointment or Topic:

HB3971

Absolutely not....why would the legislature even take in to consideration such a drastically negative move, especially when there are so many dangerous outcomes to this? Its bad enough that this out of control legislature wants to increase taxes and control every aspect of our lives.....but to place hazardous materials in an area that floods....how can this be? Even though there is a super majority in this legislature, please consider some respect of the residents of this area, and take this back to committee level to figure out a better plan of action. Please prove to us that you are serving us, rather than the appearance that you don't care about the residents of this state.
