Measure, Appointment or Topic:

SB702

I am firmly against any ban on vaping products. This proposed ban is not just misguided, it's dangerous. Vaping is a proven harm-reduction tool that has helped millions of adults quit deadly cigarettes. Taking these products away will force people back to smoking or into the black market where products are unregulated and far more harmful. Banning vapes won't protect public health it will undermine it. Regulate vaping, don't ban it.

Thank you.
