

Submitter: Varinder Basi

On Behalf Of:

Committee: Senate Committee On Finance and Revenue

Measure, Appointment or Topic: SB702

I totally against not selling flavored vapes or liquid vapes in Oregon, even if we won't be able to sell . Public will find illegal way to buy or find substitute online . So there will never be 100 percent ban on selling. Not be able to see these products @ convenient store means killing these small stores. And these small businesses gives Oregon state a lot of income . It will affect state's income very badly or state will lose tons of money . Small businesses supports communities with food, all the urgent necessary things of daily lives , it plays a big role in growing the business industry. We always check the ID before selling , we take this very seriously to not to sell minors. Our employees are very responsible for checking the ID

Please don't hurt small businesses, they play big role for Oregon state's income .
I will never support this
