

Submitter: John O'Donoghue
On Behalf Of:
Committee: House Committee On Rules
Measure, Appointment or Topic: HB3971
Chair Bowman and Members of the House Committee on Rules.

I write to urge you strongly to advance and pass HB 3971. I believe that it is important that we divert as much material away from landfills as possible and reduce the release of methane gas, a major contributor to global warming. As a resident of Lane County I hold that the CleanLane project should be supported and that the large, out-of-state, for-profit company which dominates garbage haulage in our area should not have veto power over this important effort.

Thank you for considering my testimony.

John O'Donoghue
