Senate Committee On Rules

Measure, Appointment or Topic:

SB1003

I am in full disagreement of the bill SB 1003 which would expand the use of assisted suicide and would essentially give anyone the ability to assist in suicide, whether qualified to do so or not. This bill could lead to someone using the assisted suicide drugs to get rid of family members who are burdensome or disliked or even just to kill someone. I am opposed to assisted suicide, but if it is to be legal, It should definitely be done with the greatest of care and discretion. I personally believe only God, who created us, can determine the number of days we spend on this earth, not another person. Please do not approve of bill SB 1003.
