SB1003

The Bible says that "it is appointed unto man once to die and then THE JUDGMENT!"

It is in God's jurisdiction when a person dies not man's jurisdiction. If you say you don't believe the Holy Bible, it is still true. Do not pass this bill. It is not for man to decide when he or she dies. I believe that anyone involved in signing this bill will be guilty before God for taking a life or enabling the death of another human being plus judgment for each life.

Nobody is safe if this is allowed. Do Not Pass.
