

Submitter: Mary Maley

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1003

Please stop expanding "access" to assisted suicide. Availability becomes duty in the minds of vulnerable patients. Canada now pushes suicide ahead of true medical or social help. Recently I heard a doctor describe the death of persons who take the assisted suicide pills. There is nothing dignified or caring--nor quick--about it. It's all about saving money. Efficiency does not equal compassion. Vote NO on SB1003.
