

Submitter: Shanisa Harrold  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: SB1003  
Chair and Members of the Committee,

I urge you to oppose SB 1003. This bill dangerously expands assisted suicide by allowing non-doctors to prescribe lethal drugs lowering the standard of care for vulnerable patients.

The dangerously fast timeline can prevent adequate assessment, emotional support, and exploration of alternative treatments, particularly for those suffering from depression or grief.

SB 1003 is not a step forward, it is a step toward normalizing death as a solution, rather than affirming the inherent worth and dignity of every life, even in its final chapter.

Please vote no on SB 1003.  
Thankyou!
