

Submitter:

Dr. Steven Presley

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1003

This bill is NO GOOD for ethical provision of health care.

We are healers not "killers."

There is a huge difference between helping patients at the end of life receive the comfort measures they need and crossing the line into physician-assisted suicide.

This opens the door for nurse practitioners and physician assistants to facilitate assisted suicide as well--something far outside their scope of practice.

Please oppose.

Steven Presley, MD
