

Submitter:

Dr Elizabeth Cefalu

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1003

As physicians, we are called to help patients and do no harm. Vote no against physician assisted suicide. Additionally, it is frightening that nurse practitioners and physician assistants are being considered to be allowed to perform assisted suicide. Their depth and breadth of their education is nowhere near the same as a physicians and this amongst other expansions of scope is frightening!
