

Submitter:	Richard Harden
On Behalf Of:	Myself and the people of Oregon
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

Why is it so important to the democrats in charge to degrade the value of rural life. The damages caused by this action will have serious effects on not only rural living though. It's going to have an effect on urban areas also. What happens in the country, ultimately effects everywhere in the state. Water rights are part of farming, ranching, and overall agriculture activities. Without food the city dies, without agriculture, the supplies dwindle bringing costs up. The people move away and who knows from there. If this legislation is implemented it will have an effect on the overall economy, put people out of work, and many other detrimental things. This state is already a high cost of living state. People are already starting to leave due to the overreach of government and its over regulation, not only this legislation but others also. Don't, please don't ruin it any further. Vote no on passage of this intrusive unnecessary legislation. Thanks for your time and consideration in this matter. Vote no on SB 1153
