

Submitter:

Doris Simpkins

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1003

When did life become so dispensable, disposable and without merit? LIFE is the very foundation of being. Once we see it as otherwise, society begins to crumble, people lose a sense of sacredness and ethics fall away. Truth and justice become whatever is convenient and the laws lose their foundation in truth. Life should be valued, and death unhurried. When there is no dignity in life, there can be no dignity in death. Please use your power to pass measures that encourage and support life. Please vote no on SB1003
