

Submitter: Robert Gresham
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB1003

To the committee members on SB 1003:

I would ask that you recognize that life is precious, and the breath in our lungs is a gift from the Almighty. He gives life, it's beyond anyone's authority to take it away simply on a spontaneous decision of convenience. What's your deciding today has powerful consequences.

Please oppose this heinous bill and use your legislative authority to promote life, not death.

Sincerely,
Robert L Gresham
