SB1003

I am 100% against suicide on demand. It is immoral and unethical. Death with dignity involves family and health care providers working with the dying person through this difficult process. NOT killing them

If you pass this despicable law we will see the extreme failure of mankind in caring for one another. A human life sold eventually for body parts to fund the politicians who are responsible for this.

You will be telling these victims that their lives are worth more dead than alive.

You have brought great shame to the state of Oregon and this completely supports the degradation you have caused.
