

Submitter:	Dean Ewell
On Behalf Of:	1153
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

My wife and I oppose any measures concerning wells. Washington State tried and it us proven that all.the ground water is back into the creeks and rivers at the same levels. Washington has to drop these issues with the scientific studies. Aksi the government should not be controlling state wide water issues. Infringement on constitutional rights.
