SB1153

I oppose this bill. This bill will harm agriculture and add an onerous amount of rules and regulations that will do nothing but create a more complex water management system. Why do the Tribes need to be consulted? They have their own sovereign land, they don't need to be consulted with on the rest of Oregon. You legislators are exactly the reason that farming is declining at an alarming rate in Oregon. Kind of like all of the onerous housing regulations enacted decades ago. We are now paying for those bad decisions, we will be suffering from this bad bill as well. More government regulation is not the answer. If you support this bill, you are the problem.
