I oppose this bill, SB 1153. Farms, ranches, small home backyard gardens and small animal (cattle, sheep, goats, llamas, chickens, turkeys, etc) need adequate water for food, no matter how food is gotten= whether through a store or the backyard. Much of water rights have already been diverted for wildlife habitat and fish in previous sessions. This is further chipping away at the rights of the people to be fed or to feed themselves (life, liberty...). There is no need to multiply what is already negatively impacting our ability to raise our own foods.

This bill should never (EVER) reach the house or senate ever again.

Again I oppose this bill and any bill that chips away at water rights, wells, or land owned by the citizens of Oregon.
