

Submitter: Steven HAMILTON

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB1153

I Steve Hamilton represent a third generation farm known as Rainbow Hill Ranch here in Monmouth, we use irrigation on our farm for crop production, stand establishment, erosion protection. We work on a very low margin for all of the inputs that we invest and to have our irrigation further restricted would cause greater harm than good. We currently have a system of water rights that adequately protects the quantity and quality of rights. Please do not pass this additional burden upon our farm.
