| Measure, Appointment or Topic: | SB1153 |

Please do NOT pass this! Water is an absolutely vital component for Central Oregon - for drinking, for agriculture, AND for fighting WILDFIRES! Oregon has too many regulations as it is and we already live with enough unintended consequences! So often, the people who write these laws and think they're helping, frequently ignore the reality on the ground. Oregon needs to protect the water we have by not sending it to California and using it wisely with the laws and regulations that promote wise USE not ignorant, restrictive "Conservation" that is life killing literally.

Humbly submitted by Keri Satterlee
