

Submitter:	cindy GRENVIK
On Behalf Of:	HB 1153
Committee:	Senate Committee On Rules
Measure, Appointment or Topic:	SB1153

I'm hoping the HB1153 will be looked at with unusual wisdom.

I can see many harmful ripples of this bill. Please consider how many farmers and households this will affect. At time there seems to be only one resolve at hand but it can cause future problems that may not be seen at present. I'm hoping many will see a new path for the future, one that will put this if nothing else on hold until it can be viewed by many with good common sense.
