Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

I'm apposed to the water grab by those in the Willamette Valley area, especially Portland. The eastern part of this state needs all the water that they can receive for their crops & cattle. Portland forgets that others have rights too. We need these farmers & ranchers so that we can grow our own food. Especially since we are now worrying about tariffs & the cost of food.

Even Canby at one time needed to use wells to get anything to grow. Now it's paved over with asphalt.

Sorry if I sound like an old lady, it's because I am.
