Committee:	House Committee On Revenue
Measure, Appointment or Topic:	SB485

Ellen Lane, 007th precinct, 6th Congressional District. My husbands family bought this family farm, with a Doug Fir forrest in the 1930s. It has wildlife, springs and a year round creek. It has been logged and replanted twice. His grandparents, mother and he himself has wanted to keep it in the family. There are 60acres including newly planted Doug Fir. Climate change has made this difficult, but we keep at it. Luckily our children are involved in the upkeep and so are my grandchildren. Help keep it in our family. Please support SN 485 and vote YES. Thank-you. Respectfully Ellen Lane
