SB1153

I am opposed to more regulation on the water supplies, as it would drive the cost of our water up and potentially hurt Oregon farmers and agriculture. Our water already costs more than other states. And we have abundant water here so it does not make sense ! Portland water should be cheap, coming directly from Bull Run, but our bills run in the \$300-500 range EVERY MONTH !!! This is outrageous ! You should be working to LOWER our water costs , and not thinking up more projects that are not necessary anyway but which would increase the cost of our water. PLEASE DO NOT VOTE FOR THIS BILL. !!!!! Oregon resident, Portland OR.
