

Submitter:

Robert Bullard

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

This is another law with no guardrails and allows a single bureaucrat to deny an application based on little to no evidence of damage or detriment that can only be appealed through a legal process that will be prohibitively expensive and lengthy for both parties. It may be well intended but it is a terrible bill!

Please vote NO on SB1153.
