

Submitter:

Matthew Erickson

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB1153

Dear Senate Rules Committee, My name is Matt Erickson. I am a hunter and angler, and believe it's time for Oregon to start looking at the environmental effects of changing a water right. Water is a public resource and it's time for Oregon to catch up to other western states and start taking a look at effects of these changes on fish and water quality. Thank you.
